## Activities For K – 4

1. Mouse Cages & Rollers – Are there more mouse cages (on the bathroom walls) or rollers (on the stairway railing)?
2. Roller Slide – Who will go faster down this slide: you or me (your chaperone)? Why do you think so? Try it and see!
3. Underground Whale Way – How is the Underground Whale Tunnel lit? Let's go and find out!
4. Aquarium – How many different kinds of fish live in the aquarium? Who else lives with the fish?
5. Puking Pig – How many gallons of water do you think pour out of the Puking Pig?
6. Caves – Let's go through the caves. Tell me if you think they were made by nature or by man. Why do you think so?
7. Enchanted Forest – Let's go through the forest. Were the trees made by nature or by man? Why do you think so?
8. Lizard Lounge / Samwiches – What are the animals on the pillars made out of? Artwork made from collection of different things is called a collage. Have you ever made a collage?
9. Rollers – Spin the rollers around as fast as you can. How could you spin all of the rollers at one time?
10. Art City (general) – Use clay or paint to create something that shows an emotion. Let others guess which emotion you are trying to show. Did anyone guess the right emotion?
11. On the 3<sup>rd</sup> Floor (or anywhere, really) – Look around! What sort of things do you see that are bigger or smaller than they'd be in real life?
12. Everyday Circus – Watch a circus performance. What can you do, so that you and your friends can put on a show?
13. Architectural Museum – Make a rubbing. Arrange your group's rubbings in different ways until you agree on a favorite.
